

LUCKY LADIES BLACKJACK

In addition to the Blackjack wager there are two optional wagers — Lucky Ladies and Lucky Ladies Bonus Jackpot. You place these bets at the same time your primary bet is made.

You are betting on whether or not your first two cards equal a total of twenty. Additional bonuses are paid if your two cards are suited, (e.g. Ace of Clubs and Nine of Clubs) or matched (e.g. two identical cards such as two King of Diamonds). Special bonuses are awarded if your Queen of Hearts pair occurs at the same time the dealer has a blackjack.

The outcome of the primary blackjack bet has no bearing on the Lucky Ladies bet and vice versa. You can win on one and lose on the other.
